Primrose Oil Company  
11444 Denton Dr.  
Dallas, TX 75229

Dear Sirs:

I would like to thank you for the Primrose 512M 80-90 gear oil our company purchased from you. We use this oil in the gearboxes in our manufacturing plant. One gearbox had a whining noise and after using your product it quit making the noise totally. Another gearbox that we use frequently dropped about 15° in running temperature and after one years use and approximately 4,000 hours the oil test that came back had good results similar to what new oil would test.

We have been very satisfied with the products we have purchased from your company.

Sincerely,

A handwritten signature in cursive script that reads "Merlin Nussbaum".

Merlin Nussbaum  
Plant Manager
