Gentlemen:

We have been a customer of Primrose products for over 18 years.

At one time though a local major oil company distributor convinced me that his products were just as good and cost less than Primrose.

Within just a short time I realized that they were not. I had to restock with Primrose products.

Your 327 Armor Plate Grease is the best! We also have used 206M, 403 and 252 with excellent results.

Having breakdowns are very costly. Using Primrose Oil products reduces this problem.

Sincerely,

Frank Toste
