Re: Primrose 324 Plunger Grease

Dear Mr. Clifton,

I want to compliment Primrose on its 324 Plunger Grease. We at J4 Oilfield Service have been using the plunger grease for about 2 ½ years now. I have seen a big difference in the overall amount of packing being used. I will say that since we have used the grease it has cut our cost for packing materials and plungers by at least 50. We are sold on the Primrose 324 Plunger Grease and would highly recommend this superior product to anyone.

Regards,

Harold E. Bowen,
Director of Operations
